anxious to preserve individualism I am ear-nost in my desire to see the trusts exter-minated, root and branch, that the door of opportunity may be open to every American citizen.

OLDENG

opportunity may be open to every American citizen.

On another occasion I shall call attention to the rapidly growing expenditures of the Federal Government. It is natural those who look upon taxation as a blessing should view overgrown appropriations with complacency, yet even the desire to find ways of spending the revenues brought into the treasury by a tariff cannot wholly account for the reckless extravagance of recent Congresses.

But at this time I desire to center your thoughts upon the overshadowing evil of the day—the trust—with its plutocratic tendencies that result therefrom. It demands a remedy, and the people are prepared to administer heroic treatment. The Democratic party offers a solution which is both reasonable and adequate—a solution in which time honored principles are applied to new conditions.

The Democratic party is not the enemy of

The Democratic party is not the enemy of property or of property rights, it is, on the contrary, the best defender of both, because it defends human rights, and human rights are the only foundation upon which property and property rights can rest securely. The Democratic party does not menace a single dollar legitimately accumulated; on the contrary, it insists upon the protection of rich and poor alike in the enjoyment of that which they have honestly earned. The Democratic party does not discourage their influence, but on the contrary stimulates each individual to best endeavor by assuring him that he will not be deprived of the fruits of his toil. If we can repeal the laws which enable men to reap where they have not sown—laws which enable them to garner into their overflowing barns the harvests that belong to othera—no one will be able to accumulate enough to make his fortune dangerous to the country. Special privilege and the use of the taxing power for private gain—these are twin pillars under which pulsorser rests. To take away these The Democratic party is not the enemy tune dangerous to the country. Special privilege and the use of the taxing power for private gain—these are twin pillars under which plutocracy rests. To take away these supports and to elevate the beneficiaries of special legislation to the path of honest effort ought to be the purpose of our party

None Can Be Injured.

None Can Be Injured.

And who can suffer injury by just taxation, impartial laws and the application of the Jeffersonian doctrine of equal rights to all and special privileges to none! Only those whose accumulations are stained with dishonesty and whose immoral methods have given them a distorted view of business, society and government. Accumulating by conscious fraud more money than they can profitably use upon themselves, wisely distribute or safely leave to their children, these denounce as public enemies all who question their methods or throw a light upon their crimes.

these denounce as public enemies all who question their methods or throw a light upon their crimes.

Plutocriscy is abhorrent to a Republic, it is more despotic then monarchy, more heartless than aristocrascy, more selfish than bureaucracy. It preys upon the nation in time of peace and conspires against it in the hour of its calamity. Conscienceless, compassionless and devoid of wislom, it enervates its votaries while it impoverishes its victims. It is already sapping the strength of the nation, vulgarizing social life and making a mockery of morals. The time is ripe for its overthrow. Let us attack it holdly, making our appeal to the awakened conscience of the nation in the name of the counting room which it has defied, in the name of business honor which it has sullied, in the name of the people whom it has oppressed, in the name of the homes which it has despoiled and in the name of religion upon which it has placed the stigms of hypocristy. And if I may be permitted to suggest a battle cry, I propose a stanza, but slightly changed, from one of the strongest of the poems of Scotland's great democratic bard;

Columbia, my dear, my native soil, For whom my warmest wish to heaven is sent,

content.

And O, may heaven their simple lives prevent

From luxury's contagion, weak and vile;

Then, though uncarned wealth to wickedness be lent.

A virtuous populace may rise and stand A wall of fire around their much leved land."

Mr. Bryan concluded his address at 10:10 o'clock, and the audience cheered wildly for a minute. Then many hun-dreds rushed toward the platform to shake hands with the speaker. He smiled again and again. Mr. Bryan was a trifle hoarse when he ended, showing, as he said, that he had not made a speech in a long time to such

a vast audience or one that had cost him such physical effort. Mr. Hearst came in for a large share of the demonstration following the ad-journment of the meeting. Many per-sons surrounded his box. He bowed sons surrounded his box. He bowed acknowledgement and finally made his way out through a great crowd.

At 10:20 o'clock the vast Garden was practically empty, and a few minutes later the lights were out.

J. W. Kidwell, formerly of this city, but more recently a resident of Los Angelos, is reported dead in the latter city. During his residence in Salt Lake Mr. Kidwell was very well known and liked. He had extensive mining interests in this State and Idaho. Mr. Kidwell was horn in Ohio, and was active in G. A. R. circles wherever he resided.

HEALTH COMMISSIONER DENOUNCES FERNSTROM

Just Calls the Member From Third a Plain, Ordinary

The Committee on Sanitation of the City Council took up the question of disposing of the waste water from the Mount pickle factory, which is located at Eighth South and Third West streets, at a meeting held Thursday night, at which Mr. Mount and some of the residents in the neigh-borhood of the factory, who have been complaining about the matter, were pres-

ent.

Mr. Mount expressed a willingness to do anything possible to eliminate the trouble that has existed, caused by the lack of sewerage on the street and also the fact that the ditch in the street is so low that it will not carry off the water that is run into it.

so low that it will not carry off the water that is run into it.

The residents of the neighborhood of the factory have been complaining because the refuse from the pickle vats was run into the ditch in front of the factory. The Board of Health has had the matter under consideration for the past three months, and the City Engineer has also had the matter under consideration to determine the best means of disposing of the material from the factory, and it was found that the only feasible plan was to run a pipe to connect with the Ninth South street canal.

At the meeting last night it was determined to adopt this course, and Mr. Mount expressed a willingness to install a six-inch pipe from the factory to the canal, a distance of a block and a half, and at a cost of show 100.

canal, a distance of a block and a half, and at a cost of about \$400. The commit-tee also decided to visit Eighth West street this morning in company with the Health Supervisor, and see whether or not the Lemp's bottling works and some of the other establishments on the street should not be required to connect with this same drain.

The City Engineer stated that it would take about two weeks to install a pipe. The resolution which was introduced by Mr. Fernstrom about a week ago in which it was set forth that the Board of Health had not been diligent in per-forming its duties in seecing that the Mount Pickle company abated the nuisance, was then read and referred back to Mr. Fernstrom, which kills the resolu-tion. In the discussion over the resolu-tion the Health Commissioner called Fernstrom down and characterized him as a liar, and the Third ward member

TALKS ABOUT MILFORD

Angus Buchanan Is Booming His Town in Southern Utah.

Angus Buchanan, a prominent merchant and mining man of Milford, is in the city on and mining man of Milford, is in the city on business, a guest at the Cullen hotel. Since coming to the city, Mr. Buchanan purchased from P. B. McKeon, through Fred J. Klosel, the business building now occupied by him in conducting his merchandise business, the price paid being in the neighborhood of \$5000, or about \$100 per front foor, which, in view of present conditions and future prospects of the town, is considered reason-able.

able.

The waterworks system, Mr. Buchsnan says, is about completed and ready for service. This gives Milford the finest water system of any town in the State. The water flows from a well over 300 feet deep, at the rate of fifty gallons per minute, by natural pressure. This water, which is 98 per cent pure, is conveyed by main pipes and laterals all over the town. By means of a pump the water is forced into a large tank or reservoir, with a capacity of over 300,000 pump the water is forced into a large tank or reservoir, with a capacity of over 200,000 gallons, and by hose attached to hydrants, can readily extinguish any fire that might start in any part of the town. As a consequence, fire insurance rates will be greatly valued.

quence, fire insurance rates will be greatly reduced.

Mr. Buchanan says it is firmly believed by those best informed that Milford will be made the division point of the Salt Lake Route. This will raise Milford from a village of about 1000 population to a town of at least 2500 inhabitants in a very short time.

at least 2500 inhabitants in a very short time.

The mines being worked tributary to Milford are responding splendidly to development and rich strikes are of frequent occurrence. Milford, Mr. Buchanan says, is the clearing point of a vast mineral-producing district and a large area of agricultural and stock-raising country, and its future must of necessity be in the ascendant by reason of its favorable environments.

Mr. Buchanan having purchased his fall goods, returns tonight to Milford. ormed, discharging a sticky fluid which units itching. When the crusts or scabs are scratched off the raw and bleeding. Dear Sirs—My body broke out with a kin diseases are in the rash or eruption which in spite of all bran-like scales come on the itching, especially at night, was simply terrible. I had tried many acking, and the painful established branched preparations without the scale suffering. It mined to give it a fair trial, and was inexpressibly delighted when a few bottles cured me entirely.

BUTTE, Mont. Aug. 30.—Peter Hanson, a plumber, aged 44, and his daughter, aged 10, were burned to death in a lodging house fire this morning. They came here from Salt Lake City ten days ago.

WILL CELEBRATE

Extensive Preparations Being Made for Labor Day at Ogden.

MUCH INTEREST IN YOKEL-CANNON MEET

Programme Arranged for the Big Event Is an Extensive One.

Special to The Tribune.

Special to The Tribune.

OGDEN, Aug. 30.—Extensive preparations for the celebration of Labor day, on Monday, September 3, are being made and the day promises to be one of the greatest the labor organizations ever celebrated in this city. Decorations are now being strung on the principal business houses of the city and by the time the grand parade starts, at 10:39 a, m. Monday, the town will show a brilliant array of bunting. At night the electric lights that cover so many blocks of the business section, will be illuminated, and there will be bands in evidence to furnish the music.

mess accition, will be infinitely, and there will be bands in evidence to furnish the music.

The exercises will begin with a grand parade that will form at 10:30 a. m. and will march to the Gienwood park pavilion, where addresses will be made by Governor Cutler, Mayor Conroy and other speakers, and where a musical programme and other exercises will be rendered.

In the afteruoen there will be a match game of ball between the Brigham City team and the John S. Lewis Jewelers, of Ogden. Both teams are in prime condition, and the game will be full of interest.

The crowning event of the day will be the wrestling match between Mike Yokel of Ogden and Pat Cannon of Omaha, the latter claiming to be the champion of Nebraska. Heretofore, Yokel has always gone against men of superior weight, but in this case the men are evenly matched as to weight, and the interest in the match is intensifed, the Ogden fans, of course, favoring their own man, and anxious to see what he can do in a match with a man of his own weight.

HOWELL STILL BUSY.

Personal Injury Case at Farmington Holding Judge's Attention.

pecial to The Tribune, Special to The Tribune,
OGDEN, Aug. 30.—Judge J. A. Howell
of the Second Judicial district is still at
Farmington and has been there since Monday. The especial case before him is the
personal injury suit of Willard P. Funk
against the Rio Grande Western.
The pressure of business in the court at
Ogden makes it possible that the Farmington case may be continued until the calendar can be taken up again at Ogden, and is
another evidence that another Judge should
be appointed for the Second district.

HAS A CLOSE CALL.

Fire Breaks Out in County Courthouse but Is Extinguished. Special to The Tribune.

Special to The Tribune

OGDEN, Aug. 30.—For a few minutes at noon today it looked like the Weber county courthouse in Ogden would go up in smoke, with all lis contents, except the records, which are kept in fire-proof caults.

Some timers were making some repairs on the roof, near the base of the cupola and a fire started in the beards. It is believed that a spark from the timer's furnace ignited the charcoal and communicated the fire to the roof hoards, which were open.

The fire department was called, but before it had arrived the fire was out.

Petition for Letters. Special to The Tribune.

OGDEN, Aug. 30.—Margaret E. Smoot of Arvada, Wyo., widow of William H. Smoot, who died on August 22 of this year, and Roy H. Smoot, a son of the deceased, today petitioned the Second District court to be appointed joint administrators of the estate. The petition sets forth that the estate is worth some \$700 and that there are five heirs.

Miners Are Indifferent. Special to The Tribune.

OGDEN, Aug. 30.—A meeting of the Lapor union delegates who have been ap-pointed by the various labor unions to draft a preamble, resolutions and a platform and all others who subscribe to labor unionism was held in labor union hall tonight. The attendance was less than was espected and showed considerable indifference.

OGDEN-LUCIN COPPER PROPERTY PROMISING

Manager Thomas Cunningham Is Jubilant Over the Outlook.

Special to The Tribund.

OGDEN, Aug. 30;—Manager Thomas Cunningham of the Ogden-Lucin Copper Mining company, whose mines are located as Newfoundland, just across the lake, is back, after six weeks in which he was directing the new work at the mines. He is now running a new deep tunnel, which will cross-cot the lower portion of the vein and will make an adit at 200 feet lower vertical depth than the workings at the discovery.

Mr. Cunningham brings back with him some splendid samples of copper ere from the lower runnel, among them some magnificant specimens of acurity with malachite in the same pieces, an unusual combination, with both forms of the metal crystalized. The cres iso far are mainly exides, but the sulphides are beginning to appear. An important and frequent occurrence is the red copper oxide-cuprite—of which there is a foot. The main vein is about thirty feet wide and overlies a granite formation with a quartizite and slate hanging country. The vein has three feet of high-grade copper ove, running 27 per cent, but the entire thirty feet is mineralized and will average about seven per cent.

A force of seven men is all work and it is

erailized and will average about seven per cent.

A force of seven men is al work and it is the intention to push the tunnel through and make connection with the upper workings with a raise.

The stock of the company is mainly held in Ogden, though there are many blocks held in other parts of the country. The prospect is exceedingly promising and it leoks now like a producing mine would soon be opened, much of the ore now exposed being of a sufficiently high grade to permit of shipping to the smelters.

Mr. Cunningham will return to the property next week,

IMPORTANT DECISION. Judge Howell Renders It in Litigation Over Sidewalk.

Special to The Tribune.

Special to The Tribune.

OGDEN, Aug. 30—Judge J. A. Howell of the Second Judicial district today rendered a decision on demurrers that is of considerable importance to the municipality. In effect, the decision is that private or individual contractors cannot be awarded the privilege of constructing sidewalks where obtained by the municipality, even though the aware of the property to be improved shall have employed the private or individual contractor to do the work.

The decision is rendered in the case of Joseph L. Carlson and Fred F. Sanborn against Ogden City and A. F. Parker, City Engineer. The suit was brought on August the defendants, requiring them to issue a license to Fred F. Sanborn the contractor who had been engaged by Carlson to lay his sidewalks along Walf avenue, between Twenty fifth and Twenty-sixth streets.

After reciting the statutes and the ordinances, Judge Howell concludes, in answer to the defendants that there is no misjoinder between the plaintiff and the petitioners and to the further demirrer of the defendant he finds that there is no misjoinder between the plaintiff and the petitioners and to the further demirrer of the defendant he finds that there is no misjoinder between the plaintiff and the petitioners and to the further demirrer of the defendant he finds that there is no misjoinder between the plaintiff and the petitioners and to the further demirrer of the defendant he finds that there is no misjoinder between the plaintiff and the petitioners and to the further demirrer of the defendant he finds that there is no misjoinder between the plaintiff and the petitioners and to the further demirrer of the defendant he finds that there is no misjoinder between the plaintiff and the petitioners and to the further demirrer of the defendant he finds that there is no misjoinder between the plaintiff and the petitioners and to the further demirrer of the defendant he finds that there is no misjoinder between the plaintiff and the petitioners and to the further demirrer of the defendant h
